

Fate of the Earth: Our Waters

Michigan State University | 20–21 March 2025

Join us for the Fate of the Earth: Our Waters Symposium as we explore challenges & opportunities we face in enhancing human well-being while protecting the environment. The event will highlight collaborations between MSU and partners that are focused on solving water-related problems.

Thursday, March 20 Highlights

Building Resilience along Michigan's Great Lakes Shores: Partnerships, Data, and Policies

Panelists: Ethan Theuerkauf (Michigan State University), Ronda Wuychek (Michigan Department of Environment, Great Lakes & Energy), David Bunte (Chikaming Township), and Richard Norton (University of Michigan)

An Academia-industry-government Partnership that Monitors and Predicts Outbreaks in the Tri-County Detroit Area since 2017
